DISQUE ABRASIF VELCRO - STRUCTURE EN MA

Référence DEA-DTM8681-QZ
EAN13 : 5035048543702

Disque abrasif velcro - structure en maille duree de vie extra longue x4 ø225mm grain 80

The open structure of the grid lines eliminates the need for precise positioning.[fr]The hook and loop fastener closure system connects quickly to the sander to hold the sheet in place.[fr]Eliminates the need for another backing pad to be used between a regular hook and loop backing on a orbital sander.[fr]Silicon carbide grit provides up to 4X longer life compared to DEWALT standard abrasive papers.[fr]The open weave structure enables a more effective removal of sanding dust. This results in a finer sanding pattern.[fr]Dust can easily be washed off. After drying, the mesh is ready for use again.[fr]Works with all dust extraction hole configurations.[fr]Suitable for use with all universal random orbit sanders.[fr] Garantie 3 ans
