

Scie cloche BIM 35x38mm

Référence DEA-DT90309-QZ
EAN13 : 5054905250539

Scie cloche BIM 35x38mm

Made in the USA with global materials, the Bi-Metal Hole Saws last up to 50% longer* and feature patented tooth forms that help deliver fast cuts and long life when drilling through wood, metal, and plastic. Their large, continuous slot provides leverage for easy plug ejection and removal. The durable, bi-metal construction provides the versatility to drill a range of materials and a deeper saw design allows for cutting 2-by dimensional lumber in one pass. Up to 2X Longer Life* *vs prior generation DEWALT Bi-Metal Hole Saws

Patented tooth forms optimize chip removal for efficient drilling and long life
Fast Plug Ejection
Large, continuous slot provides leverage for easy plug ejection and removal
Versatile Drilling Performance
High Speed Steel cutting edge effectively drills through wood, metal and plastic
Designed for Thick Materials (upto 44mm)
Deep hole saw design allows for cutting 2-by dimensional lumber in one pass
Electrical, Plumbing, Mechanical, Builder Remodeler
Garantie 3 ans Equipements inclus
1 X Hole Saw
