

LAME DE SCIE À TABLE EXTREME 210X30MM, 2

Référence DEA-DT20432-QZ
 EAN13 : 5054905281175

Lame de scie à table Extreme 210x30mm 24 dents, ATB, angle 7

Engineered to cut decorative wooden sections where cut finish is the highest priority. For stationary saws. Suitable for cutting hardwood, wood, plywood, MDF and chipboard C3 next generation carbide can be sharpened up to 3 regrinds and has 2X life (vs. DEWALT Construction series range). Expansion slots dampen noise and vibration. Thin kerf making it ideal for cordless circular saw blades and less push force required. Ultra sharp carbide teeth reduces tear out. Optimised grind angles for a better quality cut. Garantie 3 ans
